**Data-Vision Announces Integration with SharperLending**

MISHAWAKA, IND. – October 19, 2012 – Data-Vision, Inc., a leading pioneer in Internet lending technologies that enable mortgage lenders to quickly and affordably implement innovative web portal and e-lending capabilities, announced today that they integrated their award winning online solutions with SharperLending's XpertOnline credit reporting solution.

SharperLending LLC is a financial services and mortgage technology provider that offers four flagship products with a number of ancillary products and services: Appraisal solutions through their **Appraisal Firewall** product, credit reporting technology through their **XpertOnline** product, 4506/income verification technology through their **TRV Provider** product, and a technology platform that enables access to all of our products plus products from other mortgage technology providers through their **SharperLending platform** product.

Data-Vision President, Randy Schmidt, stated, "We are honored to be working with SharperLending to integrate with their XpertOnline credit reporting product. We welcome the opportunity to bring our industry leading online lending tools to SharperLending's client base and expand the products and services that we provide our customers".

In today's lending environment borrowers demand more online lending tools from their lender, Data-Vision has a proven track record of delivering innovative online solutions to the hundreds of financial institutions that it serves. They understand that being able to deliver a consistent

borrower experience across all lending channels through a dynamic single online lending platform improves customer satisfaction in the most cost effective manner.
